

- Always start posing from the feet
- Direct gaze by using one of **the three** - see gaze posing rules
- Help hold the fabric in place with her hand
- Multiple wraps of fabric around her will lower it's opacity and will lower the shape of breasts but will show an overall shape that may be preferred by some women to going full nude
- Hold the fabric in place with a clip or tuck in at the back
- Kick bottom out to one side or arch her back if shooting in profile
- Position feet first before wrapping because she will not be able to move when wrapped

FABRIC
