

- Always start posing from the feet
- Direct gaze by using one of **the three** - see gaze posing rules
- Pull shoulders back and push chest out to lift breasts
- Do not light with flat lighting. Use high key, low key or soft directional light to enhance the image from the short side
- Kick bottom out to one side or arch her back if shooting in profile
- Pubic area should be just visible, if at all
- Position front foot on tip toe to enhance posture and cover pubic area
