

- Shoot from any angle in line or above her own eye line
- Prevent a “double chin” by looking down with her eyes rather than her head. Tilt her head slightly down and to the side
- Direct gaze in one of three ways. At her bump, at the camera, or at someone she loves
- Ensure both hands can be seen using any **cradle position**
- Raise one foot to add shape to legs
- Sit in a relaxed position

SITTING
