

- Shoot from any angle in line or above her own eye line
- Prevent a “double chin” by looking down with her eyes rather than her head. Tilt her head slightly down and to the side
- Direct gaze in one of three ways. At her bump, at the camera, or at someone she loves
- Can be used for nudes, semi-nudes, fabrics or clothed. Use hand positions to cover or cradle
- Arch back to push out bump and give extra shape
- Sit on knees or lay in a foetal position
